

The Yale Safe Collection

Treasuring your freedom

Yale. The world's favourite lock

At Yale we've been looking after people's homes and their favourite things for over two hundred years. We understand that the truest form of security is the freedom to enjoy living life to the full, without worry.

The New Yale Safe Collection has been designed to provide just that. As one of the world's best known, and preferred, leading lock brands we follow our mission to help consumers live more carefree lives. So we have combined the latest technologies and materials with centuries of experience to create safes that meet the most demanding requirements.

Yale Safe Range

Fire Safes

The flagship product of Safe fleet. It's a state-of-the-art fireproof safe box with a unique digital lock unlike anything in the market.

Certified Safes

The most secure safes in the range. Sold Secure and Secure by Design certified electronic safe that gives very good protection against attacks.

Security Safes

Economic option of security safes for good burglary protection. Motorised lock, laser-cut door and high security override key makes it a high performer at mid price.

Guest/Value Safes

A range of basic security safes, brand new design unique for Yale and a good quality entry point product.

Yale

Fire Safes

Fire Safes:

Locking mechanism:

16mm locking bolts
World class electronic lock with over 1 billion combinations

Mounting:

Pre-drilled holes with fixing bolts included

Special features:

- Privacy features
- Emergency battery opening

Accreditations/standards:

Respective models rated 1 hour protection of documents and data
£1000 Cash rating

Designed to keep you cool

Like every Yale quality assured product, the new range of Yale Fire Safes has been designed with your peace of mind in focus. The entire range has been built and thoroughly tested to withstand intense heat and humidity, resist attack, leaving you the knowledge that your most precious documents are in good hands.

Two types of highly resistant safe-boxes guarantee a high level of protection and fire resistance. The Yale Fire Safe for Documents protects your passports and all precious paper documents. The Yale Data Fire Safe contains an additional "safe within a safe" insulation layer. This protects extra sensitive digital data, whether they are on an external hard-drive, on CD ROMs, DVDs or tapes.

All Yale Fire Safes are thoroughly tested, both in our internal labs and with independent external testing institutes to withstand extreme temperatures and humidity. A fire test is performed in a furnace where the safe is brought up to a temperature of 927 degrees celsius – simulating the extreme temperatures that occur under a house fire. The Yale Fire Safes are built with the latest technology in fire insulation which gives excellent protection and allows more room for your valuables inside your safe due to the thinner wall thickness.

State-of-the-art digital touchpad

- Unique touchpad technology
- 1 billion + digital user code
- Code scramble input function for privacy
- One time access codes
- Silent input option
- 1-48 hours total lockdown mode
- Time lock when wrong code is inserted

Easy to operate

- Re-settable 4-12 digital user code
- Emergency battery capability
- Low battery alarm signal

Protection

- Tested to withstand up to one hour of intense fire
- 16mm steel locking bolts
- Hinge protected with 18mm steel back end locking bolts

Yale

Certified Safes

Certified safes:

Locking mechanism:	22mm locking bolts Electronic lock with motorised bolts 6 lever double bitted mechanical override
Mounting:	Pre-drilled holes with fixing bolts included
Special features:	- Full felt lining - Internal LED light - Key areas reinforced
Accreditations standards:	Sold Secure Silver Secure by Design £2000 Cash rating

The crime scene: tested to destruction.

To really understand how safes are broken into in the 21st century, and where in your home they have to withstand attack, we set up a few crime scenes of our own. Extensive and exhausting tests proved that we needed to incorporate several improved key features:

- extra thick body and door, reinforced with armour plated steel
- laser cut door, for minimal gap
- locks with heavy-duty solid steel bolts in the door
- reinforced door hinge

As a result the new Yale safes were awarded a Silver in the 'Sold Secure Accreditation' (Sold Secure, UK 2012).

The design scene: fitting in to fashionable homes

Research (ASE, Consumer Research, July 2007, UK) shows that people want safes of a handy size and a blend-able colour scheme. This is especially important for the growing numbers of individuals living in smaller, even studio, homes, where space is at a premium. Research also shows that, where possible, most people prefer their safes to be bolted to the floor, or to the wardrobe wall. All our safes take these facts into account. All Certified Safes are fully-lined to further protect their contents.

Because safes are most often hidden in dark corners, we've also included a more intuitive LCD screen that lights up when you're entering your PIN, and a bright interior light that comes on when you open the door.

Premium Safes

Premium Safes:

Locking mechanism: **22mm locking bolts**
Electronic lock with motorised bolts
6 lever double bitted mechanical override

Mounting: **Pre-drilled holes with fixing bolts included**

Accreditations/standards: **£1000 cash rating**

The home scene: user friendly, user faithful.

You open your safe using a code you choose yourself, so it's easier to remember and it's just as easy to re-set. When you enter your secret user code, the motorised bolts withdraw and the door opens automatically.

To override the electronic lock, the safe can always be opened through the high-security six lever lock with a double-bitted high security Yale key. The key hole is concealed behind the Yale logo badge.

Approved by Secure by Design.

Certified by Sold Secure Silver accreditation.
